and is a scanned image of my Dec 5, 2005 letter to the corrupt Department of Agriculture for the State of New Jersey's Sussex County Soil Conservation District, <http://home.earthlink.net/~sussexscd2/> the corrupt Judge John E. Mulhern, J.M.C. and the then corrupt U.S. Attorney Chris J. Christie, Esq. (N.J.) now the corrupt Gov of New Jersey

Please see <http://thomascaggiano.com/pdf> for an index of additional reports and earlier reports indexed on <http://thomascaggiano.com/page400.htm>

More data is in Superior Court Records in the following cases:

Ind 08-09-316-I, State of New Jersey vs. Thomas Caggiano Dismissed with Prejudice against the State of New Jersey on 13 Malicious Criminal Charges filed by Borough of Stanhope officials and employees dismissed on May 11, 2010 the corrupt judge was N. Peter Conforti, J.S.C. and corrupt State Prosecutor David Weaver, Esq and his first assistant prosecutor Gregg Mueller, Esq. and other Asst Prosecutors

Docket SSX-L-847-07 Borough of Stanhope vs. Thomas Caggiano and State Dept of New Jersey Department of Community Affairs GRC apparently has "vanished" into the archives of Sussex County Civil court with a restraining order against me that I can't examine any government record in the Borough of Stanhope by the former corrupt Vicinage Judge B. Theodore Bozonelis, AJSC the leader of a corrupt Vicinage of Superior Court and Municipal Judges in Sussex County and Morris County protected by the corrupt Supreme Court's Advisory Committee on Judicial Conduct, the corrupt Attorney General of NJ Paula Dow, Esq., the FBI and U.S. Attorney in NJ and the corrupt OAC and Chief Justice of the New Jersey Supreme Court Stuart Rabner a former corrupt New Jersey Attorney General under the also prior corrupt ex-Gov of N.J. Jon Corzine. Judge Bozonelis, AJSC admitted he had NO evidence of corrupt liar's Borough of Stanhope's, Sussex County, Laddey, Clark and Ryan's LLC's Richard Stein's Esq. false statement that I had submitted 800 Open Public Record Act Requests ALL on Zoning in two years. NO hearing was ever held with testimony and the entire purpose of the document that was filed as a stay order request against the GRC changed without any Notice of Motion or response by the GRC. The docket just vanished without motions and without court orders to prevent any change in his corrupt court orders which are included in the corrupt court orders issued by the corrupt Sussex County Superior Court's N. Peter Conforti, J.S.C. in my municipal appeals 13-04-08 and 19-05-09 of the dozens of NON-criminal convictions of me by the corrupt team of Judge Craig U. Dana, J.M.C. and his corrupt municipal prosecutor William Hinkes, Esq as both Richard Stein and William Hinkes submitted evidence to the Office of Attorney Ethics investigator Harry Norton, Jr. that convicts the all of massive federal and state crimes such as 18 U.S.C. Sections 241 and 242 and N.J.S.C.2C:30-6 with bodily harm, kidnapping, conspiracy, criminal coercion, fraud, trickery, complicity, perjury by Richard A. Stein, Esq., harassment, providing false information to a law enforcement official, witness retaliation, obstruct the administration of law, terrorism, false imprisonment and kidnapping among just come of the criminal acts.

The docket numbers of the Supreme Court investigator are:

Thomas Caggiano vs. Richard A. Stein, Esq. Docket No.: XIV-2010-2006E and

Thomas Caggiano vs. William E. Hinkes, Esq. Docket No.: XIV-2010-2011E

Per Rules of Professional Conduct their law firm partners, shareholders and supervisory attorney are also liable for these lawyers act per Rules of Ethics RPC 5.1

Sir:

The reason I and Mrs. Mary Pawar have each requested documents via New Jersey Open Public Record Act from SCSCD are the following reasons:

a. Mrs. Mary Pawar, Mr. Iqbal Pawar and I are cooperating with the N.J. Department of Consumer Affairs Board of Engineers complaint against the Stanhope Borough Engineer John Cilo Jr via complaint #5-13 for incompetence and misconduct. The Point of Contact is Ms. Winston 973-504-6534. We are adversely impacted property owners. I expect to file complaints against 4 other Professional Engineers and 1 Professional Planner. One of the PEs is the SCSCD PE for incompetence.

b. I am also cooperating with the U.S. Attorney's Office in the federal building in Newark as I had a Nov 30, 2005 meeting lasting over 1.5 hours presenting an overview of the 5 ft of evidence, 200 dated witnessed photos and I have over 20 Stanhope Town Council, Land Use Board and Environmental Commission audio tapes of public meetings obtained under OPRA that shows the development on Block 10902 Lot 10 and Lot 12 documents the development was illegally undertaken and there was gross unreported violations of the Soil Erosion and Sediment Control Act, Stanhope Land Development Code Chapter 100 and Shade Tree Commission Chapter 53.

I also visited the FBI at Garret Mountain Plaza on Nov 4, 2005 and we have gained the support previously of Senator Littell, Assemblywoman McHose and Assemblyman

**CORRUPTION IS EXPOSED ON**

**thomascaggiano.com**

**see The CAG Report of May 13, 2007**

Gregg and recently our U.S. Congressman has written to the IRS and EPA and U.S. Senator Frank Lautenberg wrote to the Mr. James Nobile, Assistant U.S. Attorney, Chief, Special Prosecutions Division 973-645-2766 wherein I provided him on Nov 30, 2005 and his investigator Mr. Beet a petition signed by all 14 adjacent property owners surrounding the development to comply with federal, state and municipal law, restore the trees destroyed, retain the swale topography above the wetland and the site grading plan and other evidence which included the fraudulent Soil Erosion and Sediment Control Plan certified only by SCSCD by Mr. Lundin its chairman after I informed him the plan was false. I had previously informed and pointed out on the SH#44 where areas of falseness were in a meeting with Ms. Straub the SCSCD manager and Ms. Cathy Williams a member of her staff and again with Ms. Straub and Mr. Krause another member of her staff. At the first meeting, Ms. Straub ran out of the room twice! After completing an OPRA request for 8x10 copies, she physically blocked Ms. Williams from making sectional copies of fraudulent areas which I pointed out and ran out of the room with the false SH#44 after I attempted to take a photograph with my camera without interruption to the staff. She returned and again ran out of the room after I advised her to bring back the plan or I would call the Office of Government Integrity as I had placed Ms. Ellen Cohill's phone number from its memory. In the meeting with Mr. Krause after she closed a portfolio of over 100 8x10 color photos showing gross violations on the site, I explained in great detail the falseness of SH#44 and the adverse impacts of the site, she noticed an aluminum object on the table and asked if I were taping the meeting? I responded no it was my digital camera as I took photos of the massive violations as Paramount Self Storage on my way to the meeting in Newton as Route 206 in Stanhope and Dell road was a mess of sediment on the highway. As I was showing the photos on the LCD screen to Mr. Krause she made me stop immediately and leave with the portfolio of photos and those in the camera without showing them to her or the staff. In a report I received via OPRA from the Department of Community Affairs Construction Code Official Mr. Maher he asked Mr. Cilo Jr and Ms. Straub if a Soil Erosion and Sediment Control Plan was needed for 6 Oak Drive which is part of the minor subdivision of 2 Oak Drive and 6 Oak Drive, Block 10902 Lot 10 and 12 and both provided false responses to the official investigation. Per the findings of the State Soil Conservation Committee executive secretary Mr. James Sadley after I appealed the SCSCD falsely prepared SH#44 by the developer to avoid apprehension on numerous criminal acts such as non-protection of shade trees, not complying with the topography, adversely impacting drainage easements and non-disturbance zones. Only part of the false details were erased on SH#44 while other details such as walls were not shown which criminal acts in themselves were by numerous parties.

c. I have spoken with Mr. Robert Czepiel, 1-609-984-6464, of the N.J. Department of Criminal Justice and he believes the U.S. Authorities should conduct the full investigation of federal, state and municipal violations as his department may have a conflict of interest. I have requested the U.S. Attorney to resolve jurisdiction matters and I and the other 13 adjacent property owners will full cooperate with any investigation. For over 1 year as I have endeavored to provide data to the New Jersey Department of Criminal Justice, Mr. Edgar Hess who has at least 6 inches of evidence which are detailed assessments with numerous photos of proof and the criminal codes

2/5

government officials, E.N.F. Development Co. LLC, Franklin Dawalt Jr, Eleanor Dawalt, Wendell Inhoffer (PE), Judith Keith (PP) and state and municipal officials.

Here are the five documents, please provide them or admit they do not exist!

1. Please provide a full size copy of a Soil Erosion and Sediment Control Plan submitted by Eleanor Dawalt as required by the State of New Jersey Soil Erosion and Sediment Control Act and Stanhope Municipal Code Chap 100 Land Development for the minor subdivision Block 10902 Lots 10 and 12, 2 and 6 Oak Drive that was approved by Stanhope and certified by Sussex County Soil Conservation District as required for a minor subdivision with more then 5,000 sq ft disturbed prior to undertaking development and issuing a certificate of occupancy. If the plan is not approved by Stanhope and also certified by SCSCD, please state no such plan exists as I do not desire a plan that is not approved by Stanhope and certified by SCSCD.
2. Please provide a full size copy of a Soil Erosion and Sediment Control Plan submitted by ENF Development LLC as required by the State of New Jersey Soil Erosion and Sediment Control Act and Stanhope Municipal Code Chap 100 Land Development for the minor subdivision Block 10902 Lots 10 and 12, 2 and 6 Oak Drive that was approved by Stanhope and certified by Sussex County Soil Conservation District as required for a minor subdivision with more then 5,000 sq ft disturbed prior to undertaking development and issuing a certificate of occupancy If the plan is not approved by Stanhope and also certified by SCSCD, please state no such plan exists as I do not desire a plan that is not approved by Stanhope and certified by SCSCD.
3. Please provide a full size copy of a Soil Erosion and Sediment Control Plan submitted by Eleanor Dawalt, called SH#44, as required by the State of New Jersey Soil Erosion and Sediment Control Act and Stanhope Municipal Code Chap 100 Land Development for the Block 10902 Lots 10, 2 Oak Drive that was approved by Stanhope and certified by Sussex County Soil Conservation District prior to undertaking development and issuing a certificate of occupancy. If the plan is not approved by Stanhope and also certified by SCSCD, please state no such plan exists as I do not desire a plan that is not approved by Stanhope and certified by SCSCD.
4. Please provide a copy of the SCC251 AP10 Application for Soil Erosion and Sediment Control Plan Certification submitted by ENF Development LLC for the Project Minor Sub-division, Project Location Municipality: Stanhope, Project street addresses: 2 and 6 Oak Drive, Block 10902, Lots 10 and 12 and its accompanying Ownership as required by the State Soil Erosion and Sediment Control Act and Disclosure Affidavit required for Partnerships.
5. Please provide a copy of the SCC251 AP10 Application for Soil Erosion and Sediment Control Plan Certification submitted by Mrs. Eleanor Dawalt for the Project Minor Sub-division, Project Location Municipality: Stanhope, Project street addresses: 2 and 6 Oak Drive, Block 10902, Lots 10 and 12 as required by the State Soil Erosion and Sediment Control Act.

As I have 5 ft of evidence and hundreds of dated witnessed photos, a 30 single page write-up chronology of prior events, I will support any investigation at no cost and not require any travel or per diem or other charges to the government to assist in a comprehensive investigation as requested by other numerous adjacent property owners.

Sincerely,

Thomas Caggiano
